

## LOGSTOR presents Alex Juel Mathiasen- Finance Manager

### Please tell us a few words on how long have you worked for LOGSTOR and describe your position

I started at Logstor 1/8-2014 as a financial controller (a part of the treasury), and on the 1/12-2017 I started as Finance Manager for Logstor A/S, where I am currently manager for 5 bookkeepers and 1 trainee.

### What do you value most at LOGSTOR?

Our very flat organization, where everyone can talk directly to each other, but at the same time we all respect the leaders etc.

### What have you learned here?

Earlier on, I have been an auditor, and now I am on the other side of the desk/table. I have learned what kind of work it is to be the one, who has to give the information's etc. to the auditors. Besides the above, I have learned to act in an international group, where I am in contact with many of my non-Danish colleagues each day.

### What is LOGSTOR doing to make you successful at work?

Giving me space and time to use my knowledge, and at the same time, they listen to my ideas etc.

### What is the most meaningful part of your work?

Since the finance department is a service department, the most meaningful part of my work is to make sure that we are able to give the financial information that our colleagues asks for. Due to this we are able to ensure that our colleagues have the information's that they need, so that they make the best decision.

### When do you have most fun at work?

When we have some social arrangements etc. It does not make any difference whether this is only in the finance department, the whole Logstor A/S or with some of my colleagues from other countries. I am very much into making sure that my colleagues in my department are having a good day, and that they are glad to be a part of the LOGSTOR-team.
