

LOGSTOR presents Søren Degn - SME CRM & Price Lists, Customer Service Competence Center

Please tell us a few words on how long have you worked for LOGSTOR and describe your position

I have been with LOGSTOR since 1984. The first 13 years in Fittings production working with welding in all materials.

What do you value most at LOGSTOR?

LOGSTOR is a company that is not afraid of challenging their employees. So over the years I have had plenty of challenges.

- Changing from production to Sales in connection with introduction of SAP
- Switching to Marketing to work full time with prices
- SAP CRM introduction

What have you learned here?

From the beginning of my employment training has been provided if we asked, being internal training in Joint installation, to after hour language training in German.

What is the most meaningful part of your work?

All these new tasks and being allowed to work with the best colleagues in the world no matter where they live in the world, is why we (I) tend to stay for many years.
